What's the difference?

Overview

I have been in the software industry for last 15 years after completing my MCA. I started my career as a software developer, and worked on web applications then I shifted to Android app development.

As a Freelancer I am involved with development of website & database , Android application, caspio app development and Testing .

Specialization:

Caspio ,WEB API (WCF, REST), PHP , MYSQL , JavaScript , jQuery , AngularJS , CSS3 , d3.js , MSSQL SERVER , ORACLE, Android, SQLite , c# , Asp.net MVC ,LINQ , Entity Framework, SSRS , Crystal Reports ... [more](#)

Плюсы и минусы

Плюсы

- Быстрый набор
- Сразу виден послужной список
- Высокая мотивация и ответственность
- Платишь только за работу
- Можно быстро расстаться

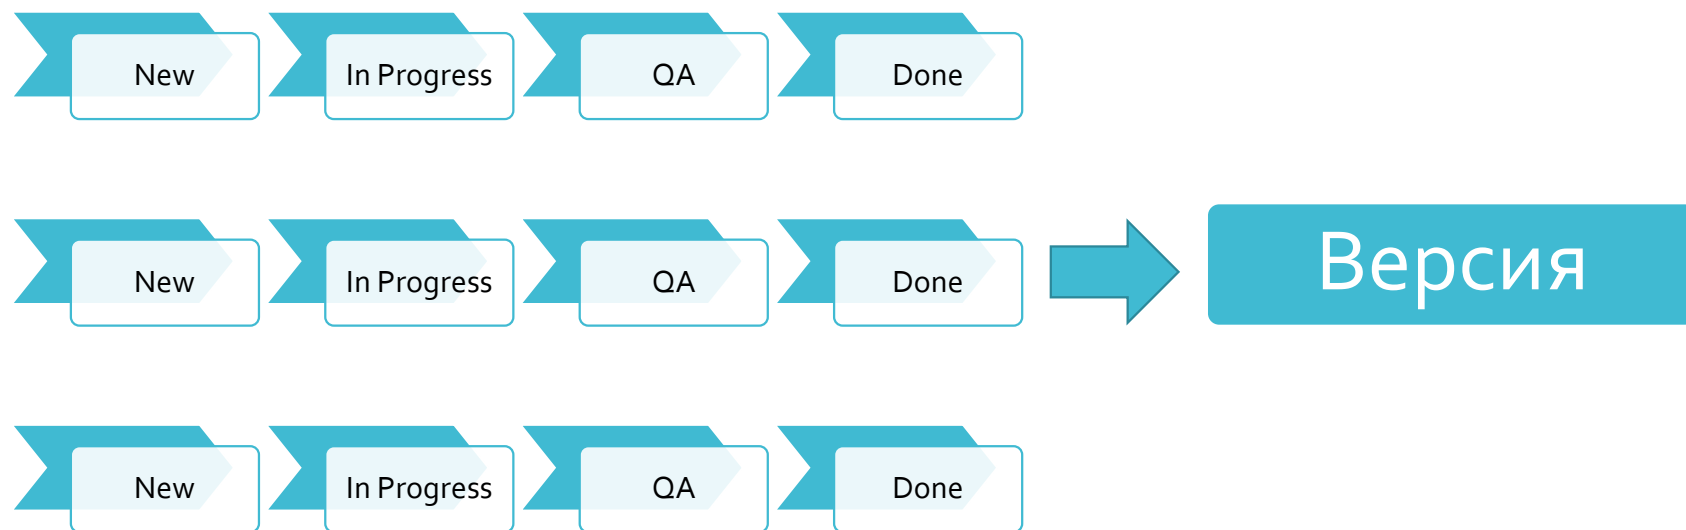

Минусы

- Нет гарантии времени
- Распределенная разработка
- Накладные расходы по управлению
- Может быстро переключиться на другую работу

Release Notes

27 Warnings

33 Issues in version

32 Issues done

0 Issues in progress

1 Issues to do

Warnings indicate when the status of a JIRA issue doesn't reflect related development activity. For example: an issue marked complete that has an open pull request should be marked as still being in progress.

Manage Warnings

Unreviewed Code

These issues have been marked complete but the commits are not part of a pull request or review.

Уровни контроля качества

Level 1

- User Story Definition of Done
- Smoke test for developers passed

Level 2

- Regression tests passed
- Functional tests based on DoD of resolved issues and bugs passed
- Acceptance from Product Owner

Level 3

- UI testing on multiple devices
- Upgrade tests passed
- "Go" from Product Owner

Чеклисты

A	B	C	D	E	F
Module of test	No. of test	Test Scenario	Expected Results	Execution result	Issue in JIRA
Initialization	1	The App's first launch	The App launches	Planned	
			Splash screen draws "loading" using english language		
			Tutorial is drawn		
	1,1	App launch speed	The App shouldn't launch more than 5-10 seconds; If launch takes more than 1 second, it should draw "loading" message	Planned	
	2	Device orientation changes	The app changes its layout depending on a device's orientation, during loading screen and/or main functionality	Not implemented	
Settings	3	Changing the App's language	Language changes from Settings screen;	Planned	
			The change applies immediately for all available texts(tutorial, network condition messages, informational messages, loading screen)		
Controls	3	Camera source switching	Tap on Switch Camera button switches the camera source from back to frontal camera and backward.	Planned	
			The controls remain at their places		
			The target image can be caught by both cameras and switched between both playback modes		
	4		Camera can be switched only until there is no
